## KEEP MOTHS AT BAY WITH LAVENDER BAGS

[Home](#) » [News](#) » [Keep moths at bay with lavender bags](#)

**Celialindsell.com sells oversized lavender bags that combat moths problems**

Having trouble with moths? **Celia Lindsell** has created a range of **lavender bags** to help combat the problem.

A former visual merchandiser, who helped establish Tiffany & Co in London, Celia has now moved to the South of France where she has established her own lifestyle brand with a shop in Uzes and an online boutique.

One of Celialindsell.com's specialities is French lavender, with products ranging from doorstops, small pillows and oil, to lavender bags made from pretty fabrics (pictured) and in several sizes (£8 - £35).

Use the smaller bags for wardrobes, drawers and linen cupboards and the larger as ornaments in **bathrooms** or **bedrooms** (remember lavender has soothing, soporific qualities too). Her cotton scarves are cute too!

For **decorating ideas** take a look at our galleries, and for the latest news and interiors gossip check out the **Roomenvy** blog.
